

FLEETFOCUS EDGE

Mobilise your fleet
operations

FleetFocus EDGE marks the next generation of the AssetWorks FleetFocus system. With FleetFocus EDGE, users benefit from years of fleet management expertise, combined with a fully responsive design, modern user interface, and workflow experience improvements.

With FleetFocus EDGE your employees can access the FleetFocus system from any device. A technician can log in from a computer to review assigned tasks, use a tablet to log time while conducting maintenance on the shop floor, and the later use a smartphone to review and submit timecards.

FleetFocus EDGE is included as a part of the MobileFocus Enterprise suite.

Key Features:

- **Fully responsive interface** – Access the solution from any device, including desktop, laptop, tablet, and smartphone
- **Streamlined user workflows** – Conduct work in less clicks, saving time and shortening the technology learning curve
- **Integrated with FleetFocus** – All data is automatically integrated with FleetFocus

? Do you need to mobilise shop floor operations?

? Are your technicians tired of waiting in line for workstations?

? Do you want to attract and retain the next generation of technicians?
